Dr. Weichen Eric Wong Awarded \$400,000 From NSF

Cindy Nghe July 23, 2021 [Awards](#), [Computer Science](#), [NSF](#), [School of Engineering and Computer Science](#)

[Dr. Weichen Eric Wong](#) received \$404,772 from the the [National Science Foundation \(NSF\)](#) for his research on [REU Site: Software Safety and Reliability: Research, Practice, and Innovation](#). Dr. Wong evaluates the strengths and weaknesses of existing methodologies and current practices for safety assurance and reliability modeling and prediction. His research explores how software safety and reliability requirements may affect the software lifecycle and how to make software systems both safe and reliable.
