

# Technical Seminars on Blockchain & Smart Contracts

W. Eric Wong  
Vice President for Publications  
IEEE Reliability Society

The Dallas Chapter, in conjunction with the Department of Computer Science at the University of Texas at Dallas, organized a special event focusing on *Blockchain and Smart Contracts* on June 21, 2022. It was held in a hybrid mode with about 50 attendees. Half of them attended in-person, while the other half joined online via Zoom.

There are three technical seminars as follows:

- *Use Cases for Blockchain Technology*  
Dr. Liang Seng Koh (left) & Dr. Sean Pan (Right)  
RFCyber, Inc.

- *Blockchain, Smart Contract, and Corporate America*  
Professor Sophia Hu  
Baylor University

- *Blockchain and Smart Contracts: Testing and Repair*  
Professor Eric Wong (left) & Dongcheng Li (right)  
University of Texas at Dallas

The Dallas Chapter would like to thank Mr. Lon Chase for all his support in helping to organize this special event. Special acknowledgment also goes to RFCyber Corporation, a Texas registered company since 2020, which provides solutions on Web 3.0 such as Blockchain, Smart Contracts, Cryptocurrency, and Mobile Payment. It has offices at Plano and Waco (both in Texas) to sponsor joint research projects at The University of Texas at Dallas and Baylor University.
